Shayne Lussier

450-712-9914 | shayne@shaynelussier.com | https://shaynelussier.com/

SKILLS

- Power BI, Tabular Editor, Python, Golang, SQL, Snowflake, Git, Docker, Dynamics 365

EXPERIENCE

JAMP Pharma: *Business Intelligence Analyst* *10/2024 - Present*

- **Automated business-critical workflows** by developing a dynamic "back-in-stock" email system sent to 3000+ pharmacies, using purchase history to personalize recommendations and increase conversion opportunities. View example.
- **Drove profitability** by designing a project tracking framework for a professional allowance reduction initiative, generating **$2.02M in realized savings**.
- **Improved data performance at scale** by redesigning key data models using BCNF normalization, reducing table size up to **11×** and significantly enhancing query speed and storage efficiency.

L3HARRIS: *BI Developer* *01/2021 - 10/2024*

- **Built a centralized workforce planning database** to track field mechanics' skills and projected retirement timelines, enabling HR to identify at-risk expertise and proactively target recruitment efforts..
- **Improved Power BI reporting efficiency** by implementing best practices in data modeling and visualization, ensuring fast, accurate, and reliable updates to critical KPIs.
